BRAINLYHQ - 24.06.2026															
BASICS OF ECONOMY AND EARNINGS															
On the BrainlyHQ server, you can earn coins in many different ways! In addition to commands like !work, !hustle, and !crime, you can also play games of chance or use !rob to try and rob someone else's wallet. BrainlyHQ offers a wide range of ways to earn. Here are a few of them: - Every person chatting has a chance (regardless of posting on economic channels) to gain additional roles, items, coins, and loot-drops! - For every additional activity, a user can receive coins! Whether it is a Nitro Boost, a new level, or perhaps a special role - you always gain something! - By using the !collect-income command, you will receive income from the roles you own! - Earn coins by participating in events, games of chance, science scavengers, and contests!
